Astronics AeroSat Debuts FliteStream™ SATCOM Connectivity Solution at AEA Show

*In-Flight Connectivity (IFC) solutions innovator introduces
FliteStream™ VIP package to dealer network*

EAST AURORA, NY, April 7, 2015 – For dealers looking to provide a complete inflight connectivity package to their business and VVIP customers, Astronics AeroSat, which designs and manufactures Ku band satellite connectivity solutions for aircraft, has introduced its FliteStream™ broadband connectivity package for the business/VIP aviation market. Learn more about FliteStream™ and see the unique antenna technology at Astronics booth #302 at the 58th Annual AEA Convention and Trade Show.

FliteStream™ provides individually customizable broadband connectivity solutions, expressly designed for business/VIP aviation customers who demand uncompromising levels of service and performance. FliteStream™ is a turnkey connectivity package including F-Series fuselage mounted SATCOM hardware or T-Series tail mounted SATCOM hardware combined with satellite network service, certification assistance and world-wide 27/7 AOG product support.

The FliteStream™ one-stop solution is focused on customer convenience as well as connectivity speed and consistency for the ultimate in system performance. Utilizing its patented “Lens Horn” antenna technology with the built-in upgrade path to Ka band satellite networks, the connectivity package is the ideal solution for both today’s satellite networks as well as what is on the horizon for tomorrow.

FliteStream™ service plans feature customer-definable options for geographic regions and bandwidth requirements. This ensures that each operator receives the service level needed to meet their unique needs.

Astronics Aerosat is a wholly-owned subsidiary of Astronics Corporation (NASDAQ: ATRO), a leading provider of advanced technologies for the global aerospace, defense consumer electronics and semiconductor industries.

ABOUT ASTRONICS CORPORATION

Astronics Corporation (NASDAQ: ATRO) is a leading supplier of products and technology to the aerospace, defense, consumer electronics and semiconductor industries. Astronics Corporation, through its wholly-owned subsidiaries, has a reputation for high-quality designs, exceptional responsiveness, strong brand recognition and best-in-class manufacturing practices. The Company routinely posts news and other important information on its website at www.astronics.com.
